

A beautiful smile is the first thing you notice when you talk to someone. Having white teeth is a great way to make your smile as beautiful as possible so you can go about your day with a confident smile on your face.

At Smooth & Tan we offer Advanced Teeth Whitening. The best quick, dentist quality teeth whitening treatment to get those beautiful white teeth you've always wanted.

Advanced Teeth Whitening will give you up to 10 shades whiter teeth in just one session!

## HOW DOES IT WORK?

---

- After a full consultation, your teeth are treated with a Hydrogen Peroxide gel (14%) which is completely safe for your teeth and would even be safe for human consumption.
- To speed up the reaction, a blue LED light source is shone onto the treated teeth.
- This relaxing treatment takes 45 minutes to 1 hour.
- You'll see fantastic, instant results: up to 10 shades whiter teeth with an average of 8 shades in just one session!
- Advanced teeth whitening won't strip tooth enamel and it's safe! Giving you dentist-like results, without the cost.
- You will receive a free Vitamin E stick for home use to protect your gums.
- Maintenance is easy – you'll generally have one session every six to 12 months, depending on severity of staining and lifestyle habits (e.g. consumption of tea, coffee and red wine or smoking).
- Please note: it is completely normal to experience mild sensitivity for up to 24 hours post treatment.
- We stock products to help you maintain your beautiful smile, just ask our friendly staff!

## WHY GO FOR ADVANCED TEETH WHITENING?

---

- We use Hydrogen Peroxide which is the most effective whitening ingredient available (it's what most dentists use for chair-side treatments).
- The high percentage of our Hydrogen Peroxide (14%) makes it a very effective and safe procedure.
- All our gels are manufactured in the USA and are FDA approved.
- We use the Futura 2400™ teeth whitening LED light for the best results.
- LED light is a much safer alternative to UV light, which can blister the skin.

**But most importantly: we haven't met a customer that wasn't fully satisfied with the results!**

## WHEN NOT TO HAVE YOUR TEETH WHITENED WITH ADVANCED TEETH WHITENING

---

Most people can safely get their teeth whitened with Advanced Teeth Whitening. However we don't recommend the treatment for people that:

- Are pregnant or breast feeding
- Are allergic to peroxides
- Have decaying teeth or exposed roots
- Have had braces or oral surgery in the last 6 months
- Are under 16 years of age

“ I COULDN'T BE HAPPIER WITH MY TEETH WHITENING RESULTS! SMOOTH & TAN WAS INCREDIBLY PROFESSIONAL AND MADE THE EXPERIENCE VERY ENJOYABLE. THEY MADE MY TEETH 8 SHADES WHITER AND THE EFFECTS ARE LASTING! I WOULD RECOMMEND IT TO ANYONE IN A HEARTBEAT. ”

Hannah (Smooth & Tan customer)
